HIGH TORQUE 4-POLE MOTORS
WITH SPEEDS UP TO 6 MPH.

OCCUPIED TRANSIT
TESTED TO ISO-7176

ULTRA LOW 16.5" STFH

SOLID, SINGLE SHEET
METAL CHASSIS

SIX WHEEL DRIVE SUSPENSION

CLIMB CURBS
UP TO 3"

RELIABLE

With a chassis formed from a single sheet of metal, steel components with automotive undercoat plating, industry best motors and end of line testing, every Q300 M is built to keep you moving.

TINY TURNING

Thanks to its TRUE mid-wheel drive technology, the Q300 M Mini turns on the spot, for an ultra-small 17" turning radius. Other compact MWD chairs have offset drive wheels, increasing their overall turning radius.

ULTRA-SLIM

Ridiculously narrow at 20.5" wide, the Q300 M Mini goes where others can't. Whether it's a complicated living room, a cluttered kitchen, or a narrow doorway, it'll fit into your life, not the other way around.

ELEVATE AND DRIVE WITH C-ME®

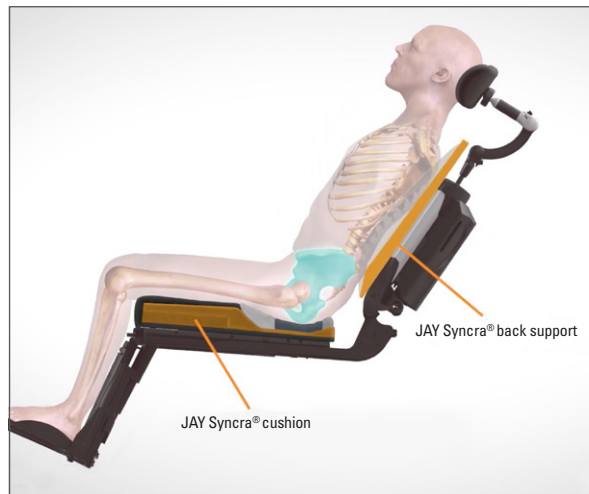

C-Me enables you to elevate up to 12" while traveling up to 3 mph! You can lift or descend at the touch of a button with no need to stop while transitioning. Our suspension doesn't lock out when you drive with C-Me, giving you a smooth and comfortable ride from start to finish.

SEDEO® PRO™

Truly modular in design, the SEDEO PRO seat frame provides a new level of functionality, comfort and design. For moderate to complex clinical needs, the PRO combines a highly adjustable seat frame with an excellent choice of postural support options.

JAY SYNCRA®

Exclusive to the SEDEO PRO Series, JAY Syncra® seat and backrest cushions are specifically designed for optimal performance when tilt is used together with power recline. Featuring a lower rear pelvic wall, deeper leg troughs, a scalloped lower backrest shell and tapered backrest foam, JAY SYNCRA is uniquely engineered to maintain the proper pelvic position throughout the seat movements.

Q300 M SEAT FRAME COMPARISON

	SEDEO PRO	SEDEO LITE	CAPTAIN SEAT
Seat Width	16" to 22"	15" to 20"	16", 18", 20"
Seat Depth	14" to 22"	16" to 22"	16" to 22"
Back Support Height	21" to 30"	18" to 30"	25"
Powered Recline	150°		
Anti-shear Back Support	4" (optional)		
Tilt Angle	50°	50°	
Elevate with C-Me	12"	12"	

Additional information, videos and selection guide on the seating options.

SEDEO® LITE™

The SEDEO LITE is an adjustable seat frame with a sleek look. Its minimal design alleviates weight capacity concerns when using aftermarket equipment. Traditional back canes are width-adjustable from 15" to 20" and easily fit JAY® backs. An array of options cover mild to moderate clinical needs, and intuitive adjustability meets individual requirements.

CAPTAIN'S SEAT

The Captain's Seat offers a relaxed position with a semi-recline, fold-down back, adjustable seat depth, and a convertible seat pan for your preferred cushion.

DRIVE CONTROL OPTIONS

Now available with either PG Drives R-Net Electronics or Dynamic Controls LiNX Electronics, you can match the rider with the technology that supports their needs. LiNX electronics gives users intuitive, confident control, memory seating, and the assurance of live diagnostics. Touchscreen with simple swipe and tap is easy to understand and quick to use.
