

If you would like us to have more information about your measurements, please fill out our user measurement guide below.

If you would like additional help on calculating the bridge length or tub/shower base leg length / offset for a tub slider system, please use the calculator at the bottom of this document.

## User Measurement Guide

A	Chest / Lateral Width	
B	Hip Width	
C	Shoulder Height	
D	Seat Depth	
E	Lower Leg Length	

## Bathroom Fitting Guide

A	Overall length of bathtub		
B	Length of bathtub floor	I	Distance from edge of bathtub ledge to closest obstacle (when toilet is NOT next to the tub)
C	Width of bathtub floor (flat portion only)	J	Distance from center of bathtub to edge of outside bathtub ledge (when toilet is NOT next to the tub)
D	Overall width of bathtub		
E	Distance between edge of toilet bowl and bathtub	K	Distance from center of toilet bowl to center of bathtub drain / spout
F	Widest portion of toilet bowl (including bidet with if one is present)	L	Distance from top edge of bathtub to bathtub floor (inside tub height)
G	Distance between side edge of toilet bowl and closest object / wall	M	Distance from top edge of bathtub to bathroom floor (outside tub height)
H	Distance from front edge of toilet bowl to closest object / wall	N	Distance from top of toilet bowl to floor (with seat / lid in raised position)
		O	Doorway Width

If ordering for a shower, please include the following measurements

1	Height of the shower threshold on outside of shower	4	Overall width of the shower (left to right)
2	Width of the shower entry	5	Overall depth of the shower (front to back)
3	Height of the shower threshold on the inside of shower		

## Bridge Length Calculator

If ordering a tub slider system without toilet interference, it is recommended to order the standard, 13" bridge length.

If ordering a tub slider system with toilet interference, subtract the frame width from the "K" measurement. Round bridge length up to the nearest whole number.

1	Select your slider system	2	Enter "K" measurement
<input type="checkbox"/>	MC5000 / MC6000 (subtract 17" width frame from "K" measurement)		
<input type="checkbox"/>	MC5200 / MC6200 (subtract 20" width frame from "K" measurement)	3	Suggested Bridge Length (will appear after steps 1 and 2 are complete)
<input type="checkbox"/>	MC6000Tilt (subtract 19.25" width frame from "K" measurement)		
<input type="checkbox"/>	MC6200Tilt (subtract 22.25" width frame from "K" measurement)		

## Tub / Shower Base Leg Length Calculator

If ordering a tub slider system, subtract the "L" measurement from the "M" measurement. If difference is greater than 4", 7.5" Inner Legs (shorter legs) are required.

1	Enter "L" measurement	2	Enter "M" measurement	3	Suggested Leg Length (will appear after steps 1 and 2 are complete)

## Tub / Shower Base Leg Offset Calculator

If ordering a tub slider system, subtract the frame width from the "C" measurement. If difference is greater than 3", 3" Offset Outer Legs (longer offset) are required.

1	Select your frame width	2	Enter "C" measurement	3	Suggested Leg Offset (will appear after steps 1 and 2 are complete)
<input type="checkbox"/>	17" Frame Width				
<input type="checkbox"/>	20" Frame Width
